# Transformations<sup>®</sup> TREATMENT CENTER

An **OPHealth** Company

Transformations is a mental health and substance abuse facility that appreciates the need for a treatment plan to be tailored just for you. We work with clients to understand their specific needs and determine how we can make the greatest impact in improving their quality of life. Transformations doesn't look for "quick fixes" — we're committed to building a foundation for long-term health.

Our program consists of many therapeutic interventions depending on client needs. We will help you develop the strength, insight, and tools necessary to take control of your life.

Fortunately, we have the ability to refer clients out to ethical and appropriate facilities that specialize in eating disorders, violent, suicidal, or homicidal tendencies, and schizophrenia.

## Mental Health Program

We offer an individualized, clinically sound program to treat the most pressing mental health concerns and/or any mental health issues that take away from your quality of life.

- Self-esteem
- Anxiety
- Depression
- Bipolar disorder
- ADHD
- PTSD
- Trauma
- Sexual Abuse
- Social anxiety
- Process addiction (sex addiction, gambling, etc.)
- OCD
- Panic disorders
- Mood disorders
- Boundary issues
- Adjustment disorder
- Attachment disorders

We are a nationally licensed and accredited treatment center in South Florida.
